🌐 LinkedIn 🔗 <https://abrishdev.vercel.app/>

PROFILE

A junior Software Engineer with a passion for building scalable, efficient, and user-centric applications. Proficient in modern web technologies and agile development, with a strong focus on clean code, problem-solving, and cross-functional collaboration.

EDUCATION

B.Sc. in Software Engineering

Bahir Dar University 🌐

06/2021 – 06/2025

Bahir Dar, Ethiopia

- **CGPA: 3.78/4.00**
- **Relevant Courses:** Object-Oriented Programming(Java), Operating Systems, Software Security, Embedded Systems, Internet Programming, Database Systems, Mobile-Application Development, Artificial Intelligence and Machine learning.

Fullstack Application Development

Evangadi tech 🌐

01/2023 – 07/2023

Maryland, USA

- Completed hands-on training in front-end and back-end development using HTML, CSS, JavaScript, React, Node.js, and MongoDB.
- Built full-stack web applications and practiced RESTful API design and Git version control.
- Followed software engineering best practices with a focus on clean code, scalability, and real-world project implementation.

PROFESSIONAL EXPERIENCE

Intern Software Developer

ICT4D 🌐

05/2024 – 08/2024

Bahir Dar, Ethiopia

- Developed a mobile and web application to help students prepare for Ethiopia's national exit exam.
- Collaborated with cross-functional teams to gather requirements and deliver functional features.
- Gained hands-on experience with full-stack development and user-focused design.
